Past, Present, and Future: Vaccine Innovations and Adjuvant Science

Friday 6th October 2017, 10:15-11:00
The San Diego Convention Center, Learning Lounge 1 (Booth 1019)
IDWeek 2017

Leonard Friedland, MD
Vice President, Director Scientific Affairs and Public Health Vaccines Franchise, GSK

Arnaud Didierlaurent, PhD
Director, Adjuvant Platform Lead Vaccines Franchise, GSK

Objectives

- Highlight the major innovation milestones and achievements from the past two centuries of vaccine research and development, including recent breakthroughs making once impossible vaccines a reality

- Illustrate how the development of new-generation vaccine adjuvants has increased the potential to prevent a larger number of infectious diseases
